Siggy & Flori
BLACKLINE MASTER

Brad Watson
Sophie Risuleo
Dear Teachers,

According to the NSW Department of Education and Training, smoking is a real problem for primary children. In one 1993 study, 30% of boys in years five and six and 20% of girls, had smoked a cigarette. 2% were regular users.

This blackline master can be photocopied for use in your classes. We recommend section 1 activities for kindergarten and year one. Section 2 activities have been designed for grades 2-4.

If you have any comments or creative suggestions please email us using the address littleaxe@ozemail.com.au. We hope the children you teach learn special lessons from Siggy, Flori and Fred.
